

## Start of mechanized selective collection (blue bin) as of Wednesday, June 5, 2024

# PLACEMENT OF ROLL-OUT BINS FOR MECHANIZED PICK-UP

As of June 5, 2024, Éco Entreprises Québec will be in charge of managing selective collection (**blue bin**) for all municipalities, including TMR. Collection will now be mechanized on most streets, which will entail certain changes in the procedure for ensuring that your blue bin is collected.

**IMPORTANT:** As of June 5, please leave at least 30 cm (1 ft.) of space around each bin; Nothing may be left next to your bin; everything must be inside it. Recyclables left on the ground will not be picked up.

### HOW TO POSITION ROLL-OUT BINS FOR WEDNESDAY'S COLLECTION?

- ✓ Roll-out bins must be placed **after 19:00 on the evening before** pick-up, but **before 7:00 on collection days**.
- ✓ Always place the bin in the driveway between 15 and 30 cm. (6 and 12 in.) from the edge of the sidewalk (essential for snow clearing operations);
- ✓ **The front of the bin must face the street** so that the collection-type symbols are clearly visible.
- ✓ **The various bins must be placed side by side.** Allow clearance of at least 30 cm (1 ft) around each bin;
- ✓ Make sure that no vehicle or other object can interfere with the mechanical lifting of the bin.
- ✓ **The bin lid must be tightly closed and free of all debris.**
- ✗ **Do not place the bins directly on the sidewalk.**
- ✗ **Improperly placed blue bins will not be picked up.**

Reminder: No person shall deposit refuse, recoverable secondary materials or yard trimmings for collection before 19:00 on the evening before collection day. All receptacles shall be stored no later than 23:00 on collection days. (By-law No. 1358, sections 31, 32 and 33.)

### OUTSIDE STORAGE OF RECYCLING AND/OR YARD TRIMMINGS BINS:

Blue and green bins can be kept in the side yard of the house provided they are at least 3 m behind the building's front wall. (By-law No. 1358, section 59.2)

### OUTSIDE STORAGE OF WASTES:

Waste materials must be kept in a bin at all times and must not be visible from the street (located a minimum of 2 m from any property line). (By-law No. 1358, section 59.1)

**N.B.** These changes to the procedure for the mechanized collection do not apply to the selective collection of multi-dwelling and commercial buildings.
